Prayer List

New/Updated

- Steve Esterline's amputation surgery was successful. However, biopsy results showed that the melanoma has spread to his liver.
- Randy Wilson had a debridement on his left leg Friday to help the infection. Doctors will monitor oxygen levels and blood flow to the wound, and they hope to place a wound VAC to support healing. Please pray that these treatments are successful and that his leg heals. Additionally, an MRI revealed a fracture in his right heel. Because of these issues, he cannot put any weight on either leg.
- Venecia Poirot has an appointment with a neurosurgeon December 7 about her back.
- Anne Johnson, Ginny Wilcox's sister, had a scan that showed no sign of cancer. She will have follow-ups every three months.

Ongoing

- Burl Huey (various issues)
