Prayer List

Updated

- Following is the schedule for Mike Moore's bone marrow transplant. The family is understandably anxious about this and they ask us to continue in prayer.

Sept 14: Test run with a dose of new chemotherapy. Mike will be closely watched all day with a heart monitor and drawing for labs every two hours. Pray that his body will handle it so things can move forward.

Sept 19: Check into the hospital for seven to eight rounds of chemotherapy.

Sept 27: Transplant day; pray that his body will not reject it.

After all that, Mike and Kathy will remain totally isolated in the hotel room for 100 days. Of course, they are extremely grateful for the donor and would appreciate prayers for him. His procedure is September 26. If all goes as planned, they will be home January 15.

- Steve Esterline had a surgery follow-up appointment this week and his foot is healing well.

Ongoing

- Venecia Poirot (multiple problems)
- Sevren Poriot (recovering from a knee replacement)
